this compelling volume from the centre for economic policy research examines the discussion surrounding expansion of the european union eu the contributors address the key issues in the debate including the implications of expansion for the global trading system enlargement related pressures to reform eu decision making and the economic consequences of membership for entrants using theoretical techniques to report results and insights this book not only sheds light on the consequences of austria finland and sweden joining the eu but also discusses and evaluates the possible membership of central european ex socialist countries this is an important book for students and scholars interested in regional integration and also for policy makers in the new eu member countries and in applicant countries

this interdisciplinary work presents a conceptual framework and brings together constructivist and rationalist accounts of how eu norms are adopted adapted resisted or rejected these chapters provide empirical cases and critical analysis of a rich variety of norm takers from eu member states european and non european states including the rejection of eu norms in russia and africa as well as adaptation of eu practices in australia and new zealand chapters on china asean and the czech republic demonstrate resistance to eu norm export this volume probes differences in willingness to adopt or adapt norms between various actors in the recipient state and explores such questions as how do norm takers perceive of the eu and its norms is there a normative fit between eu norms and the local normative context similarly how do eu norms impact recipients interests and institutional arrangements first the authors map eu norm export strategies and approaches as they affect norm takers second the chapters recognize that norm

adoption adaption resistance or rejection is a product of interaction and a relationship in which interdependence asymmetry and power play a role third we see that domestic circumstances within norm takers condition the reception of norms this book s focus on norm takers highlights the reflexive nature of norm diffusion and that nature has implications for the eu itself as a norm exporter anyone with an interest in the research agenda on norm diffusion normative power and the eu s normative dialogue with the world will find this book highly valuable including scholars policy makers and students of subjects including political science european studies international relations and international and eu law

first published in 2002 routledge is an imprint of taylor francis an informa company

the years since the global financial crisis have seen something of a renaissance in the manufacturing industry the united states has launched its advanced manufacturing partnership and china owes much of its spectacular economic boom in the last decades to its being the world s factory is there room for the eu in this landscape this timely new book explores europe s role in this evolving environment it argues that on the one hand in terms of sheer numbers the role of the manufacturing industry in the eu is on a par with other major global economies however the book also states that europe falls short of its global competitors the usa in particular in terms of its involvement in the most innovative manufacturing sectors the volume therefore argues that this creates the opportunity for a new european industrial policy exploring the development of current eu policy the book puts forward suggestions as to how the eu can improve in terms of the competitiveness of its technology policy placing the eu s position in the context of the industrial structures of the usa japan and the brics the book blends theoretical models and practical examples in order to offer a the state of the art look at the current and future direction of europe s industrial policy this book will be of relevance to all those with an interest in european economics industrial economics public policy european politics and european studies

scientific essay from the year 2009 in the subject business economics economic policy university of edinburgh school of law course economics and policy of european integration language english abstract part i of this paper will illustrate that although the currency union signified the next significant step along the european integration ladder that was built already back in 1958 it must be recognised that the single

market is not yet fully established in europe hence the phrasing of the title question suggests the reading of whether or not the single currency is absolutely necessary for the completion of the single market part ii is dedicated to the central aim of this paper namely to assess to what extent the common currency furthers or indeed counteracts the achievement of the fundamental single market objective while this essay goes to lengths in highlighting the desirability of the single currency and its many benefits that help further the achievement of the single market it does however maintain that the currency union is not absolutely necessary for the establishment of the common market indeed as has been noted it is possible to have a single market without a single currency furthermore as will be shown in the forthcoming sections of part ii there are even situations in which the single currency might be harmful to the single market and to the union although the answer to the title question of whether a single currency is really required must necessarily be in the negative since the single market could potentially exist without the euro this essay will conduct an extensive evaluation of the successes and failures of the euro and the economic and monetary union emu to further the single market objective in order to illustrate that the euro has nonetheless both enabled it to function much more efficiently and helped to bring european economic and political integration to previously unknown levels in this sense the single market

embedded in the evolving comparative regionalism literature this book offers a systematic analysis of the factors positively and negatively influencing regional institution building the ruptures caused by the eurozone crises the coronavirus pandemic and by brexit have renewed the interest in the impact of crises and critical junctures on regionalism here defined as regional institution building drawing from critical juncture research and historical comparative analysis this volume uses the cases of european and east asian regional institution building to systematically analyse institutional transformations during specific historical turning points and critical juncture moments wunderlich s research offers an in depth analysis of the interrelated drivers spoilers and dissolvers of regional institution building processes in europe and east asia and addresses key questions including under what conditions does regionalism take hold what is influencing the initial institutional design choices what is the impact of historical experiences and well entrenched norms and ideas what are the roles of regional leaders how do external factors influence regional institution building what turns a crisis into a critical juncture and are such junctures threats or opportunities what accounts for variations in institutional responses to crisis events across different regional

settings this book will be a valuable resource for scholars of regionalism region building regional governance and international relations of europe and east asia

this text sets out to analyse the implications of the process of enlargement in the eu state and examines which criteria is likely to be used in deciding whether countries are ready to join it also looks at the potential consequences of growth

covers trade policy and other open economy issues embracing international trade and the environment international finance and trade and development it also considers related areas such as economies in transition and development economics

in the european union economics policies and history 2nd edition the author builds on the success and popularity of the first edition by using a combination of economics politics and history to give the reader a strong grounding in european integration and why and how policies are put in place the book is designed to appeal to a broad range of people studying the european union susan senior nello clear non technical explanations and use of appendices for more detailed discussion of theory ensures the book will appeal to students from a range of disciplines

the transformation of the economic political and security environment since the end of the cold war leaves europe with the challenge of developing appropriate new structures and policies the eastward enlargement of the european union raises major political economic and institutional issues for the eu itself and for the applicant countries of central and eastern europe this paper analyzes the prospects for and progress towards enlargement and the implications for the future development of the eu
